As most of you know, the State of Minnesota has some major budget issues. There have been many scenarios to help balance the budget. One area is cutting aid to cities. This would be all cities in the State. The City Council of Kennedy begin discussing the situation at the March council meeting. As a citizen, you may see some services scaled back. At this time, the amount of the cut is unknown but cities will see a lose in aids. The city will keep you posted as how these cuts may affect you as a citizen. Please understand that the council is dealing with a bare bones budget and any decision made will be a very difficult one.
